

**Strong defense with flexibility, residual activity and crop safety**

Helmet Herbicide™ delivers outstanding control of annual grass and small-seeded broadleaf weeds on a variety of crops. Used alone or in a two-pass program, Helmet provides an early offensive strike against glyphosate, PPO and ALS-resistant weed species.

With a top quality safener in its formulation, Helmet is proven to perform equal to market-leading metolachlor brands, but at a more economical return on investment.

**Product Specifications**

<b>Brand Name</b>	Helmet Herbicide™
<b>Category</b>	Herbicide
<b>Active Ingredient</b>	Metolachlor + safener
<b>Crops</b>	Corn, cotton, peanuts, pod crops, potatoes, safflower, sorghum, soybeans, tomatoes
<b>Site of Action</b>	Group 15
<b>Formulation</b>	Emulsifiable concentrate
<b>AI/Gallon</b>	Metolachlor 7.8 lbs a.i./g
<b>Applications</b>	Preplant surface / PPI / Preemergence Postemergence
<b>Rates</b>	0.85 - 2.0 pt/A (See label for rates by crop)
<b>Weed Spectrum</b>	Broadleaf & grass species
<b>Signal Word</b>	Caution

CORN

COTTON

POTATOES

SOYBEANS

**Primary Weeds Controlled** (or suppressed)

Barnyardgrass, Carpetweed, Crabgrass, Crowfootgrass, Eclipta, Florida beggarweed, Florida pusley, Foxtails (bristly, giant, green, millet, robust purple, robust white, yellow), Galinsoga, Goosegrass, Johnsongrass-seedling, Panicum (fall, Texas), Pigweed, Prairie cupgrass, Purslane, Nightshade (eastern black, hairy), Red rice, Sandbur, Shattercane, Signalgrass, Southwest cupgrass, Volunteer sorghum, Waterhemp (common, tall), Wild proso millet, Witchgrass, Woolly cupgrass, Yellow nutsedge

<b>REI</b>	24 hours
<b>PHI</b>	N/A
<b>Restricted Use</b>	No
<b>Packaging</b>	2 x 2.5 gal 270 gal tote
<b>EPA #</b>	74530-97

### PERFORMANCE BENEFITS

- Controls glyphosate, PPO and ALS-resistant weed species.
- Method and timing flexibility options for Fall or Spring applications.
- Tank mix compatible with fluid fertilizers and other herbicides.
- EC formulation with 7.8 lbs of active ingredient per gallon plus safener.

### CROPS

Corn (field, seed)	Popcorn
Corn (silage)	Potatoes
Corn (sweet)	Safflower
Cotton	Sorghum* (grain, forage)
Peanuts	Soybeans
Pod crops	Tomatoes

\* Sorghum must be treated with Concep® or Screen®.

### CROP SAFETY - CORN

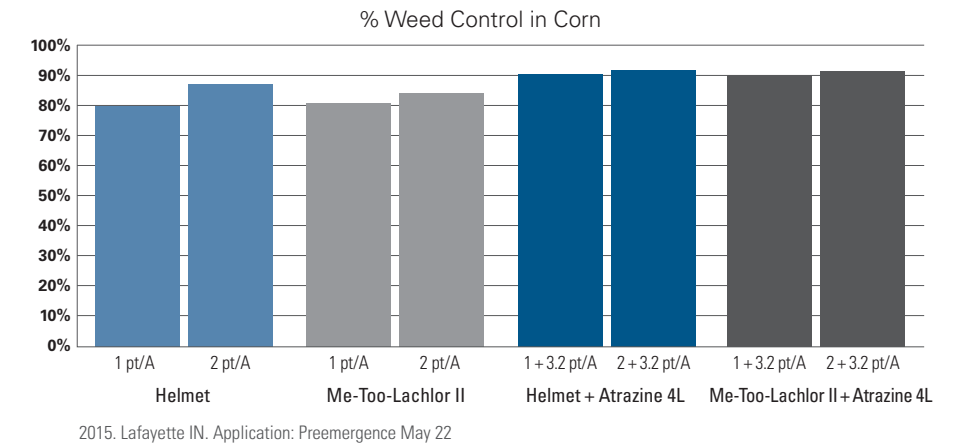

Helmet Herbicide contains a top quality safener to protect corn. Labeled for use across all types of corn including Roundup Ready®, Clearfield® and LibertyLink®.

### COMPETITIVE ADVANTAGES

- Apply before or after planting, but before weeds emerge.
- Ideal tank mix partner to broaden the spectrum of weed control.
- Resistance management tool for glyphosate-tolerant crops.
- Excellent residual activity.
- Best-in-class formulation.
- Better return on investment.
